

# Ensuring High Availability

# How available is your IT?

- Is it available when the business needs it the most?
- Is it available when things are normal?
- Is it available when things are changing rapidly?

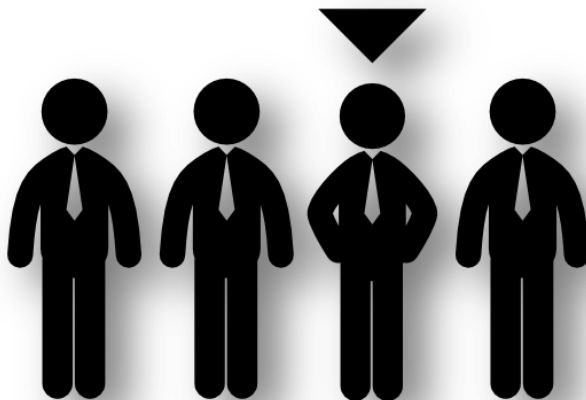

# 3 Keys to High Availability

1. The right set of tools and technologies

# 3 Keys to High Availability

## 2. The right expertise

# 3 Keys to High Availability

## 3. The right attitude

**whatever IT takes!**

# Thank You!
